**TODAY'S BEAUTY TALK**

You can make a delightful shampoo with very little effort and for a very trifling cost if you get from your druggist a package of castroth and dissolve a teaspoonful in a cup of hot water. Your shampoo is now ready. Just pour a little at a time on the scalp and rub briskly. This creates an abundance of thick, white lather that thoroughly dissolves and removes all dandruff, excess oil and dirt. After rinsing, the hair dries quickly, with a fluffiness that makes it seem heavier than it is, and takes on a rich luster and a softness that make arranging it a pleasure.—Advertisement.
